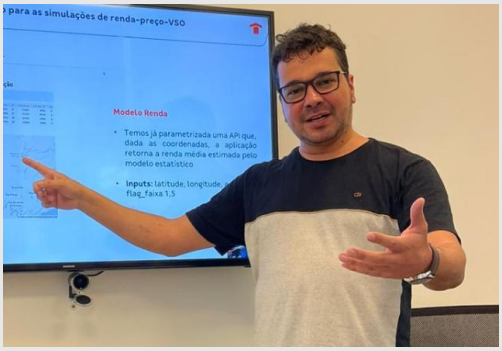
LUCAS SOUZA

Data Scientist | PhD in Physics



Solid background in math/phys/code coupled to my interest in collaborate on strategic analytical areas, naturally led me to become a Data Scientist. Focused on trying to understand the business/research challenges in order to be able to find the suitable tools for solution an then work on process optimization by implementing machine/deep learning models to deliver value from data. Experience working in agile environment and ability to collaborate with a diverse range of co-workers.
